

## Professional Experience

### Software Engineer

Oct 2025 - Feb 2026

*Circleback AI*

*San Francisco, CA*

- Developed ChatGPT-style meeting notes assistant and MCP server which is the top connector in the Claude marketplace using NextJS, TypeScript, and PostgreSQL.
- Built a customer-facing Usage Dashboard in NextJS and TypeScript for tracking meeting frequency, participant trends, and usage patterns.

### Software Engineer

May 2025 - Oct 2025

*Helicone AI (acquired by Mintlify)*

*San Francisco, CA*

- Built and scaled Helicone's global Kubernetes infrastructure across EKS and GCP clusters, leveraging Helm and Terraform, directly contributing to \$300k in additional ARR.
- Developed evaluation pipelines and HQL (Helicone Query Language) for LLM based workflows with NextJS, Typescript, Python, and Postgres.

### Software Engineer

May 2024 - May 2025

*Philips Hue (Signify)*

*Menlo Park, CA*

- Deployed and managed AWS infrastructure for the Google Home integration, including EKS, API Gateway, Lambda, ElastiCache, Elastic Beanstalk, DynamoDB, and Docker.
- Engineered AI integration for Hue integrated smart home devices in Golang, which is now deployed to millions of devices worldwide.

### Contract Software Engineer

Jan 2024 - May 2024

*AGI, Inc. (formerly MultiOn)*

*Palo Alto, CA*

- Wrote agent harness for stress testing LLM integrated agents on web tasks in parallel using Python, Playwright, and Docker, the foundation of which later became a top tier research paper.

### Cloud Engineer Intern

Jun 2023 - Aug 2023

*Philips Hue (Signify)*

*Menlo Park, CA*

- Engineered Golang Philips Hue Sync Box Alexa Skill integration that has been deployed worldwide.
- Created API Gateway, Lambda, DynamoDB and CloudWatch resources and IAM policies through Terraform.

### Software Engineer

Aug 2019 - Aug 2022

*Superbrain Securities*

*New York City, NY*

- Developed financial analysis and stock prediction app with React/JS, Python/Flask, PostgreSQL, Terraform, and Docker.

### Teaching Assistant

Dec 2019 - Jan 2024

*Purdue University*

*West Lafayette, IN, USA*

- Supervised students and lectured on complex concepts in Python, C, Java, Computer Architecture, Software Testing, and Software Engineering courses.

## Education

### Master of Science in Computer Science

Aug 2022 - May 2024

*Purdue University*

*West Lafayette, IN, USA*

- GPA: 3.83 / 4.0
- Relevant Courses: Operating Systems, Advanced Algorithms, Software Engineering, Database Systems, Information Security, Cloud Computing, Computer Networks, Software Testing

### Bachelor of Science in Computer Science

Aug 2018 - May 2022

*Purdue University*

*West Lafayette, IN, USA*

- GPA: 3.85 / 4.0
- Relevant Courses: Systems Programming, Algorithms, Programming in C, Calculus, Linear Algebra, Statistics, Information Systems, Computer Architecture

## Technical Skills

**Software Experience:** C, Datadog, Docker, EKS, GCP, Gitlab CI, Go, Helm, Java, JavaScript, Linux, NextJS, Python, React, REST, SQL, Terraform, Typescript

**Languages:** English (Native), Turkish (Fluent), Norwegian (Fluent), German (Basic)
